# ABOUT

"Baby Bibi token, completely community-driven and built on the Binance Smart Chain network, is a project where the direction is determined by the community's ideas, and everyone has a say."

Baby Bibi, the community token, is designed to make a splash in the emerging memecoin market in the crypto world. Baby Bibi aims to create a community of believers in the crypto spirit, impervious to FUD, and committed to growing together. With exciting projects on its roadmap, the token is poised for a rapid entry into the NFT market.

Baby Bibi is ready to utilize all resources to be a low-fee and community-preferred project. The team is resolute in encouraging community participation, and we would be delighted to see everyone who wants to join us on this journey. With Baby Bibi, you're invited to open a new chapter in the crypto world!

# TOKENOMIC

- Total supply: 1,000,000,000,000 \$Baby Bibi Token
- Burned amount: 30%, 300,000,000,000 \$Baby Bibi Token
- Cex listing lock: 10%, 100,000,000,000 \$Baby Bibi Token (locked for 30 days)
- Fair launch and sale for liquidity: 60%, 600,000,000,000 \$Baby Bibi Token (to be offered on the Pinksale ecosystem)
- Liquidity lock: 180 days
- Tax rate: 3% (low tax fee)

This tokenomics has been designed to begin with burning 30% of the total supply and locking 10% for Cex listing for 30 days. The remaining 60% will be offered for fair launch and liquidity provision through the Pinksale ecosystem. The liquidity obtained from this sale will be locked for 180 days. The low 3% tax rate on token transactions will make participation in the project more appealing for the community. These arrangements are designed to control the token supply, ensure fairness for the community, and support the project's long-term sustainability.
